## NATURAL HABITAT

Projects covering prairie, forest, wetland, rivers and lakes protect diverse ecological communities serving the habitat needs of wildlife, fish, birds, and plants.

## OUTDOOR RECREATION

Privately and publicly owned projects provide opportunities for public nature-based outdoor activities including hiking, fishing, hunting, cross-country skiing, snowshoeing, and nature study.

## FARMLAND

Diverse open space projects protect high quality soil resources, Community-Supported Agriculture farms, orchards, vineyards, and scenic viewsheds.
